**Writing Built Environment Dissertations and Projects: Practical Guidance and Examples** Peter Farrell

*Writing Built Environment Dissertations and Projects* will help you to write a good dissertation or project by giving you a good understanding of what should be included, and showing you how to use data collection and analysis tools in the course of your research.

- Addresses prominent weaknesses in under-graduate dissertations including weak data collection; superficial analysis and poor reliability and validity
- Includes many more in-depth examples making it easy to understand and assimilate the concepts presented
- Issues around study skills and ethics are embedded throughout the book and the many examples encourage you to consider the concepts of reliability and validity
- Second edition includes a new chapter on laboratory based research projects
- Supporting website with sample statistical calculations and additional examples from a wider range of built environment subjects
