Child with Special Health Care Needs in the Pre-school Setting Mary Theresa Urbano

A practical guide about ways to assist the child with special health care needs, this text touches on important areas such as the prevention of infections and accidents, monitoring of general growth and development, immunizations, appropriate nutrition, sleep and play patterns. In the past children with special health care needs tended to be hospitalized or looked after at home. Today there is an emphasis on leading as normal a life as possible by integration into the community and interaction with other individuals. The medical conditions discussed include cerebral palsy, cocaine exposed infants, Down syndrome, hydrocephalus, AIDS, muscular dystrophy, seizure disorders and spina bifida. This book should be particularly useful for those teachers working in special education and other professionals involved in caring for these children.
