In *Legend of the Celtic Stone*, Westminster Abbey is the site of a burglary that sets all of Great Britain astir. Both the IRA and Scottish nationalists are thought to be the culprits but no one has the answer to the puzzling crime.

Andrew Trentham, member of Parliament and one of the nation's most eligible men, is as chagrined by the break-in as anyone, and wary of the winds of nationalism sweeping down from the north. It is difficult for him to focus on national affairs however when his personal life is filled with all the trouble he can handle.

Rebuffed in his proposal of marriage by the woman that he loves and suffering through the lingering pain of a family tragedy, this heir of noble blood is compelled to reexamine his foundations. What Andrew discovers in the process is a link to ancient Caledonia, a highland heritage that will forever change the way he looks at the world. As the ancient legends begin to shed light on Andrew's place in the world, he makes attempts to rekindle the love he has lost. At the same time, a resurgent Scotland rises to reclaim the glory of its storied past
