## **Supercrash: How to Hijack the Global Economy** Darryl Cunningham

Darryl Cunningham's latest investigation takes us to the heart of free-world politics and the financial crisis, as he traces the roots of bankrupt countries to the domination of right-wing policies and the people who created them. Cunningham draws a fascinating portrait of the New Right and the charismatic Ayn Rand, whose soirees were attended by the young Alan Greenspan. He shows how the Neo-Cons hijacked the economic debate and led the way to a world dominated by the market. Smaller countries, such as Greece, have paid the price for joining a club that held impossible membership rules. He examines the neurological basis of political thinking, and asks why it is so difficult for us to change our minds – even when faced with powerful evidence that a certain course of action is not working. Cunningham's spare yet eloquent prose, perfectly complemented by the beauty and clarity of his artwork, delivers a devastating analysis of our economic world.
