When it comes to love, winner takes all.

In one day, math genius Roxie Luvito ran away from everything she knew. She needed to, it was the only way to survive. But now she's finding that striking out on her own, away from the streets and the gangs, might be harder than she imagined.

When a friend offers her a job at a hotel, she thinks she's finally made it. But when he asks her to use her math skills to count cards she realizes this might be just as dangerous as the world she just escaped.

Bear shifter Kole Winchester has a dark past. An ugly relationship with his father has turned him away from the people he cares about most. Trouble is catching up with him, as are his debts. His only way out is the dark curvy beauty who is winning all money at the table.

But falling in love wasn't something either of them bet on.

This is a STANDALONE shifter romance with a HEA and NO Cliffhanger.
