The Jammin! Drum School Beat Sheet Book Martin R Murphy

Using the BeatBox Notation that simply and visually communicates the correct tone and handing for all drums, this book contains 200 pages of blank notation sheets, for drumming students to record lessons and workshops, or create and compose their own rhythms. Each sheet contains a key to the notation for easy and immediate reference. The Introduction contains the complete explanation of the notation as well as individual keys for many standard (and not-so-common) hand drums and percussion instruments. The BeatBox Notation allows easy transposition of rhythms to different instrumentation, and has been successfully used with groups ranging all the way from Primary grade school students to professional musicians. The notation is designed to avoid a number of issues (familiar to students of ethnomusicology) which arise when endeavoring to represent worldbeat polyrhythms in Western musical notation. The BeatBoxsystem does not misrepresent an accented or "pulsed" structure where none is present in the traditional music."
