*Are Our Children Becoming a Different Species?*

*What Role Will Genetic Engineering Play?*

In the wake of the Kindred's escape, the world, it seems, is out to stifle the knowledge of their existence, through their depraved and methodical capture. With Alp firmly in command of her sisters, this tiny band of superhuman siblings are in the wind once more, seeking shelter and solace away from the chaos of Bio Vita, and those that would use them for evil

Directly following the events of Book 1, *Seeds of a New Power* takes off at top speed as the Kindred flee their bonds and seek out new life in a world that both fears and abhors them. Double crossing those that stand in their way and fleeing the tail of those who seek to track them down, the seven sisters of the Kindred must set aside their internal struggles if they ever hope to reach a safe shore.

Embrace the new world order, where chaos and greed has tipped the balance of power within the Kindred and without, as the Kindred's desperate search for sanctuary comes to an arresting and unexpected end.
