The Doctrine of Common Good

Itai Mupanduki

The Doctrine of Common Good Itai Mupanduki

The author addresses the current sad state of global affairs with amazing clarity and perplexing evidence that all we need is right before our own eyes to make things right. The book addresses head on thorny issues like sovereignty, currency, terrorism, demilitarization, problems with the United Nations, polarization of the world by the lone superpower and inherent contradictions in the axis of power, global genocide, the multinational corporations and their ever rising dominance to name a few. The author then challenges humanity to exit their shells and think globally to guarantee humanity's survival on this earth as we know it. Amazingly the book also lays bare the redundancy of many current government systems. A brilliant piece of work put together which provokes everyone's imagination for a new world based on the maximal utilization of both material and human resources guided by The Doctrine of Common Good.
