EVERY YEAR THOUSANDS OF CHILDREN are sexually abused, but the system created in the 1970's by a few mental health professionals and adopted by law enforcement and child protection agencies is making things worse. In this book, psychiatrist Lee Coleman and attorney Patrick Clancy describe how and why this is happening. By explaining the history of the child sexual abuse prevention movement, and exposing the fatal romance between mental health and law enforcement, the authors show how caring and intelligent people, including police officers, social workers, child therapists, teachers and even parents, may unwittingly create false accusations of sexual abuse.

The result is a new form of state-sponsored abuse of both children and those unjustly accused. Analysis of real investigations, such as the notorious McMartin Preschool case, makes it an indispensable guide for attorneys, judges, investigators and all those who seek the truth of sexual abuse accusations. The book's importance does not end there: it also calls for legislative reform of our currently misguided child protection system. As such, *Has a Child Been Molested?* Is important for anyone who believes that child protection and justice need not be incompatible.
