Integer Programming and Combinatorial Optimization: 8th International IPCO Conference, Utrecht, The Netherlands, June 13-15, 2001. Proceedings (Lecture Notes in Computer Science)

This volume contains the papers selected for presentation at IPCO VIII, the Eighth Conference on Integer Programming and Combinatorial Optimization, Utrecht, The Netherlands, 2001. This meeting is a forum for researchers and practitioners working on various aspects of integer programming and combinatorial optimization. The aim is to present recent developments in theory, computation, and application of integer programming and combinatorial optimization. Topics include, but are not limited to: approximation algorithms, branch and bound algorithms, computational biology, computational complexity, computational geometry, cutting plane algorithms, diophantine equations, geometry of numbers, graph and network algorithms, integer programming, matroids and submodular functions, on-line algorithms, polyhedral combinatorics, scheduling theory and algorithms, and semidefinite programs. IPCO was established in 1988 when the first IPCO program committee was formed. The locations and years of the seven first IPCO conferences were: IPCO I, Waterloo (Canada) 1990, IPCO II, Pittsburgh (USA) 1992, IPCO III, Venice (Italy) 1993, IPCO IV, Copenhagen (Denmark) 1995, IPCO V, Vancouver (Canada) 1996, IPCO VI, Houston (USA) 1998, IPCO VII, Graz (Austria) 1999. IPCO is held every year in which no MPS (Mathematical Programming Society) International Symposium takes place. Since the MPS meeting is triennial, IPCO conferences are held twice in every three-year period. As a rule, IPCO is held somewhere in Northern America in even years, and somewhere in Europe in odd years.

From reader reviews:

Elsie Canada:

As people who live in typically the modest era should be revise about what going on or details even knowledge to make these people keep up with the era that is certainly always change and progress. Some of you maybe will certainly update themselves by examining books. It is a good choice for you but the problems coming to you is you don't know what one you should start with. This Integer Programming and Combinatorial Optimization: 8th International IPCO Conference, Utrecht, The Netherlands, June 13-15, 2001. Proceedings (Lecture Notes in Computer Science) is our recommendation to cause you to keep up with the world. Why, because book serves what you want and want in this era.

William Sanders:

Now a day folks who Living in the era everywhere everything reachable by connect to the internet and the resources in it can be true or not need people to be aware of each info they get. How individuals to be smart in obtaining any information nowadays? Of course the correct answer is reading a book. Reading a book can help folks out of this uncertainty Information especially this Integer Programming and Combinatorial Optimization: 8th International IPCO Conference, Utrecht, The Netherlands, June 13-15, 2001. Proceedings (Lecture Notes in Computer Science) book as this book offers you rich data and knowledge. Of course the details in this book hundred per-cent guarantees there is no doubt in it you know.

Jennifer Fountain:

You can spend your free time you just read this book this e-book. This Integer Programming and Combinatorial Optimization: 8th International IPCO Conference, Utrecht, The Netherlands, June 13-15, 2001. Proceedings (Lecture Notes in Computer Science) is simple bringing you can read it in the park, in the beach, train along with soon. If you did not have much space to bring the particular printed book, you can buy the actual e-book. It is make you much easier to read it. You can save typically the book in your smart phone. Consequently there are a lot of benefits that you will get when one buys this book.

Valery Carpenter:

What is your hobby? Have you heard that question when you got learners? We believe that that question was given by teacher with their students. Many kinds of hobby, Every person has different hobby. And you know that little person just like reading or as reading become their hobby. You need to understand that reading is very important and also book as to be the issue. Book is important thing to add you knowledge, except your current teacher or lecturer. You find good news or update about something by book. Numerous books that can you choose to adopt be your object. One of them is Integer Programming and Combinatorial Optimization: 8th International IPCO Conference, Utrecht, The Netherlands, June 13-15, 2001. Proceedings (Lecture Notes in Computer Science).
