Modeling, Control and Coordination of Helicopter Systems Beibei Ren, Shuzhi Sam Ge, Chang Chen, Cheng-Heng Fua, Tong Heng Lee

Modeling, Control and Coordination of Helicopter Systems provides a comprehensive treatment of helicopter systems, ranging from related nonlinear flight dynamic modeling and stability analysis to advanced control design for single helicopter systems, and also covers issues related to the coordination and formation control of multiple helicopter systems to achieve high performance tasks. Ensuring stability in helicopter flight is a challenging problem for nonlinear control design and development. This book is a valuable reference on modeling, control and coordination of helicopter systems, providing readers with practical solutions for the problems that still plague helicopter system design and implementation. Readers will gain a complete picture of helicopters at the systems level, as well as a better understanding of the technical intricacies involved.

From reader reviews:

Dan Gray:

Why don't make it to be your habit? Right now, try to prepare your time to do the important act, like looking for your favorite reserve and reading a reserve. Beside you can solve your problem; you can add your knowledge by the publication entitled Modeling, Control and Coordination of Helicopter Systems. Try to the actual book Modeling, Control and Coordination of Helicopter Systems as your friend. It means that it can being your friend when you feel alone and beside that course make you smarter than previously. Yeah, it is very fortunated for yourself. The book makes you far more confidence because you can know every little thing by the book. So , let us make new experience as well as knowledge with this book.

Cindy Gross:

Information is provisions for individuals to get better life, information currently can get by anyone from everywhere. The information can be a information or any news even a huge concern. What people must be consider whenever those information which is within the former life are challenging be find than now's taking seriously which one is suitable to believe or which one the actual resource are convinced. If you find the unstable resource then you buy it as your main information we will see huge disadvantage for you. All of those possibilities will not happen throughout you if you take Modeling, Control and Coordination of Helicopter Systems as the daily resource information.

Patricia Gagliano:

Do you have something that that suits you such as book? The book lovers usually prefer to select book like comic, short story and the biggest an example may be novel. Now, why not hoping Modeling, Control and Coordination of Helicopter Systems that give your satisfaction preference will be satisfied by means of reading this book. Reading practice all over the world can be said as the method for people to know world much better then how they react in the direction of the world. It can't be said constantly that reading habit only for the geeky man but for all of you who wants to become success person. So , for all you who want to start examining as your good habit, you may pick Modeling, Control and Coordination of Helicopter Systems become your own starter.

Maria Holder:

Many people spending their time frame by playing outside along with friends, fun activity having family or just watching TV the entire day. You can have new activity to enjoy your whole day by examining a book. Ugh, think reading a book can actually hard because you have to take the book everywhere? It all right you can have the e-book, getting everywhere you want in your Mobile phone. Like Modeling, Control and Coordination of Helicopter Systems which is obtaining the e-book version. So , why not try out this book? Let's observe.
