This sixth English edition of the EAU has been prepared on the basis of the eight German EAU version and also includes the 1990 Annual Engineering Report. The recommendations contained have been recognized as international guidelines through the Notification Procedure of the EEC Commission 1991/117/D. These guidelines are employed in work involving engineering planning, design, invitation for bids, award of contracts, execution of construction and settlement of accounts for harbour and waterway projects.

From reader reviews:

Alejandra Dunlap:

People live in this new day of lifestyle always attempt to and must have the time or they will get wide range of stress from both daily life and work. So , once we ask do people have time, we will say absolutely yes. People is human not a robot. Then we request again, what kind of activity are there when the spare time coming to you of course your answer may unlimited right. Then do you try this one, reading publications. It can be your alternative within spending your spare time, the actual book you have read will be Recommendations of the Committee for Waterfront Structures, Harbours and Waterways (Eau 1990).

Carlos White:

This Recommendations of the Committee for Waterfront Structures, Harbours and Waterways (Eau 1990) is great book for you because the content which can be full of information for you who always deal with world and have to make decision every minute. This kind of book reveal it facts accurately using great coordinate word or we can declare no rambling sentences inside. So if you are read this hurriedly you can have whole facts in it. Doesn't mean it only will give you straight forward sentences but difficult core information with attractive delivering sentences. Having Recommendations of the Committee for Waterfront Structures, Harbours and Waterways (Eau 1990) in your hand like getting the world in your arm, information in it is not ridiculous a single. We can say that no guide that offer you world in ten or fifteen tiny right but this publication already do that. So , this really is good reading book. Heya Mr. and Mrs. busy do you still doubt that will?

James Martin:

In this period globalization it is important to someone to receive information. The information will make you to definitely understand the condition of the world. The fitness of the world makes the information much easier to share. You can find a lot of referrals to get information example: internet, paper, book, and soon. You can view that now, a lot of publisher that will print many kinds of book. The book that recommended for you is Recommendations of the Committee for Waterfront Structures, Harbours and Waterways (Eau 1990) this e-book consist a lot of the information of the condition of this world now. That book was represented so why is the world has grown up. The words styles that writer use to explain it is easy to understand. The particular writer made some research when he makes this book. Honestly, that is why this book suitable all of you.

William Lebel:
