Higher Probability Commodity Trading: A Comprehensive Guide to Commodity Market Analysis, Strategy Development, and Risk Management Techniques Aimed at Favorably Shifting the Odds of Success Carley Garner

Higher Probability Commodity Trading takes readers on an unprecedented journey through the treacherous commodity markets; shedding light on topics rarely discussed in trading literature from a unique perspective, with the intention of increasing the odds of success for market participants.

In its quest to guide traders through the process of commodity market analysis, strategy development, and risk management, Higher Probability Commodity Trading discusses several alternative market concepts and unconventional views such as option selling tactics, hedging futures positions with options, and combining the practice of fundamental, technical, seasonal, and sentiment analysis to gauge market price changes. Carley Garner, is a frequent contributor of commodity market analysis to CNBC's Mad Money TV show hosted by Jim Cramer. She has also been a futures and options broker, where for over a decade she has had a front row seat to the victories and defeats the commodity markets deal to traders.

Garner has a knack for portraying complex commodity trading concepts, in an easy-to-read and entertaining format. Readers of Higher Probability Commodity Trading are sure to walk away with a better understanding of the futures and options market, but more importantly with the benefit of years of market lessons learned without the expensive lessons.
