Philip's Month-by-Month Stargazing 2016: The Guide to the Northern Night Sky Heather Couper, Nigel Henbest

Philip's Month-by-Month Stargazing 2016 is a concise guide to the northern-hemisphere night sky, helping starwatchers to see the year's most fascinating events, whether observing with the naked eye, binoculars or a telescope. New for 2016, the authors have included ideas for joining Citizen Science projects at the cutting edge of astronomical research. The guide is suitable for use between latitudes 40 N and 60 N, including Britain and Ireland, Europe as far south as Rome, and Canada and the northern USA as far south as Philadelphia. Each chapter (one for each month of the year) has a colour star map, created by Wil Tirion, showing the positions and phases of the Moon, the positions of the planets, and other useful information. Each month also includes a constellation described in detail; special events during the month, such as eclipses; a featured astronomical object, usually a deep-sky target; plus an astrophotograph, with details of how it was taken. The Solar System Almanac explains the movement of the planets, with particular attention paid to their positions in 2016. Solar and lunar eclipses, meteor showers and comets are also described. Exploring the Deep Sky provides a list of recommended deep-sky objects. The observer can use the monthly charts to discover which constellations are on view, and then use this information to plan deep-sky observing. The book concludes with an Equipment Review. Here Robin Scagell, author of Philip's Stargazing with a Telescope, provides a round-up of what's new in observing technology.

From reader reviews:

Theodore May:

The book Philip's Month-by-Month Stargazing 2016: The Guide to the Northern Night Sky has a lot of knowledge on it. So when you check out this book you can get a lot of help. The book was authored by the very famous author. This articles author makes some research prior to write this book. That book very easy to read you may get the point easily after perusing this book.

Christina McMullen:

This Philip's Month-by-Month Stargazing 2016: The Guide to the Northern Night Sky is great publication for you because the content that is certainly full of information for you who always deal with world and also have to make decision every minute. This kind of book reveal it facts accurately using great plan word or we can say no rambling sentences inside it. So if you are read the item hurriedly you can have whole information in it. Doesn't mean it only will give you straight forward sentences but difficult core information with attractive delivering sentences. Having Philip's Month-by-Month Stargazing 2016: The Guide to the Northern Night Sky in your hand like finding the world in your arm, information in it is not ridiculous one. We can say that no reserve that offer you world within ten or fifteen second right but this e-book already do that. So , this is good reading book. Hello Mr. and Mrs. active do you still doubt which?

Laura Hill:

Many people spending their time frame by playing outside having friends, fun activity together with family or just watching TV all day long. You can have new activity to spend your whole day by reading through a book. Ugh, do you think reading a book can really hard because you have to bring the book everywhere? It okay you can have the e-book, getting everywhere you want in your Smartphone. Like Philip's Month-by-Month Stargazing 2016: The Guide to the Northern Night Sky which is having the e-book version. So , try out this book? Let's observe.

Robert Howard:

As a scholar exactly feel bored to help reading. If their teacher questioned them to go to the library in order to make summary for some e-book, they are complained. Just very little students that has reading's soul or real their hobby. They just do what the instructor want, like asked to go to the library. They go to at this time there but nothing reading very seriously. Any students feel that examining is not important, boring along with can't see colorful pictures on there. Yeah, it is to be complicated. Book is very important for you. As we know that on this era, many ways to get whatever you want. Likewise word says, ways to reach Chinese's country. Therefore this Philip's Month-by-Month Stargazing 2016: The Guide to the Northern Night Sky can make you experience more interested to read.
